

BlueJeans Meetings with Dolby Voice

Collaborate with video, audio and web conferencing from anywhere on any device

BlueJeans Meetings provides easy to use, enterprise-grade video meetings with crystal clear audio powered by Dolby Voice.[®] With your everyday collaboration and calendaring tools integrated with BlueJeans, meeting organizers and attendees can easily communicate as if they were meeting in person.

Easily connect and manage your meetings from anywhere, using any device

Start your BlueJeans Meetings with one-touch from any of your favorite devices — iOS, Android, Mac, Windows. Whether you are in the office or on the go, you can instantly host or join meetings seamlessly — through our fast and intuitive desktop or mobile app, or download-free through your web browser.

Increase collaboration and productivity in the workplace

Enjoy universally compatible workflow applications you're already using, including integrations with Google, Microsoft, Facebook, Atlassian and Slack. Simply engage participants and personalize presentations with screen sharing, remote desktop control, whiteboarding and public chat. Record video meetings and repurpose them for the convenience of additional on-demand viewers.

A virtual meeting that feels as natural as meeting in person

Experience HD quality video meetings that make you feel like you're in the same room, even if you're connecting from thousands of miles away. Interact naturally and avoid background noise with crystal clear audio powered by Dolby Voice. BlueJeans Meetings helps you reduce travel expenses while staying connected with colleagues, partners, and clients in a real-time virtual workspace.

KEY FEATURES

One-click scheduling

With a single click, you can add a video call to any Google or Microsoft Outlook calendar invite without entering pin codes, conference IDs, or passwords.

Meet on any device

Join or run meetings on-the-go wherever you are on whatever device works best. There's no travel time or costs so you can be more efficient and keep your projects on budget.

HD video and content sharing

Easily and intuitively share video and content in real-time with peers and coworkers in HD 1080p video quality.

Cloud recording and streaming

Record your BlueJeans meetings (including video, audio, and shared content), and easily distribute recorded video calls that can be replayed at the viewer's convenience.

User-friendly integrations

Improve workflow productivity by bringing video communications to familiar applications like Facebook Workplace, Microsoft Skype for Business, Slack, Atlassian, and more.

Download-free meetings

Join via your browser with no app to download and install, allowing easy meeting participation by customers, partners, and other external parties.

Join from conference room systems

Meeting organizers and attendees have simple one-touch join from conference rooms via BlueJeans Rooms or almost any H.323 or SIP-based room system (like Polycom, Cisco, or Lifesize) using BlueJeans Relay.

Command center analytics

Visualize real-time and historical in-meeting activity data and provide helpdesk personnel, IT staff, and senior leadership the service intelligence they need to measure ROI, identify and solve problems, and make informed decisions.

Meeting assist

Take advantage of expert assistance from a BlueJeans certified support representative. Ensure your important video conferencing meetings happen without a hitch.
